

Associate Market Access Consultant

Company:	OPEN Access Consulting (OAC)	
Location:	Marlow	
Reporting to:	Market Access Consultant	

Job description and success indicators

Company Summary - OAC

OPEN Access Consulting works in partnership with the life-sciences industry in the development and delivery of value strategies for medicines, devices and diagnostics throughout the product life cycle. Our high-calibre, experienced team works at a Global, European and UK level to ensure that all stakeholders involved in decisions to fund, prescribe and deliver products and services are considered. Our aim is to ensure that a robust programme of activities is created and implemented to optimise uptake of a product.

We currently have 8 people in the team and growing.

You will love this role if you:

- You have experience of working in market access / medical communications agency
- You have experience of writing market access deliverables
- You have knowledge of structure and function of the NHS and UK healthcare environment
- You have a good basic clinical knowledge and experience across a range of specialties
- Proven track record of project management from conception through to delivery
- Minimum of 2 years relevant experience
- You are a Graduate or have relevant healthcare qualification
- Have strong presentation skills
- You are IT literate – knowledge of Word, Excel and PowerPoint essential

You will be a success if you:

- Are independent, alert, eager self-starter
- A problem solver
- Have strong communication and relationship building skills (verbal and written)
- Are persuasive, positive and assertive
- A good team worker

Primary responsibilities:

1. Deliver profitable and high quality market access projects
2. Management of project timelines and tracking of project activities including regular communication with clients
3. Client and NHS liaison throughout the project
4. Maintain update to date knowledge of the NHS and UK healthcare environment to support OAC Market Access client delivery and business development
5. Work with the Managing Directors and Market Access Consultants in business development, identifying new opportunities and clients for OAC

Additional responsibilities:

1. Contribute to the continuing achievements and annual targets of OAC
2. Maintain thorough working records of all project activities
